Committee Appointed

Discuss Possibility Of Artificial Ice In Arena

Artificial ice for Vulcan reached the committee stage last Friday night when a number of town business men and district farmers met to discuss possibilities of such a project.

The meeting was arranged by the Vulcan and District Junior Hockey Association and held in the Legion club rooms with association president, Harris Matlock as chairman.

Taking part in discussions were Morley Scobie, Boyd McKay, Stan Scales, Phil Lucas, Leonard Voisey, Bill Richardson, Frank Wythe, Pat Roe, Doug Wilson, Howie Klippert, Wally Franks, Harry Stoddard, Arthur Cutforth, M. R. Morrison, Lionel Lucas, Martin Gottenberg, Pat Walker and Gordon Brown.

Harris Matlock outlined the background of the upsurge in hockey this winter and the accompanying enthusiasm which had led to the thought that the time was at hand to investigate the possibilities of artificial ice in town.

Mention was made that a representative of the Canadian Ice Machine Co. has been interviewed as to the costs involved, and a seven-man committee was nominated to go into the various aspects of such ice.

This committee, with Bill Richardson as chairman, met following the original meeting, to investigate the problem of financing. At the outset it was made clear that neither the town nor the County were to be solicited for any grant. It was felt money raised in this manner would have a direct influence on future individual taxes and this is to be avoided.

A survey of several other artificial ice plants around the province will be made to establish costs, methods of financing and construction of these rinks.

Present thought is that the local arena could be renovated and used with the long range view of developing it into a type of recreational centre. Along this line a suggestion was made that if a cement floor was run the arena would have an increased value and make it suitable for more purposes than winter skating and hockey.

Letters to the Editor

AN OPEN LETTER TO THE HUTTERIAN BRETHREN

To the Editor of The Advocate,

Dear Sir:

In your letter to the Vulcan Advocate you asked for and received the privilege of presenting your side of the story of the Hutterian Brethren and their aims.

May I have the privilege of presenting our side of the story. You have gone to some length to prove that you are Christ's church.

There is nothing new in this as every denomination since His birth has done the same thing and the desire and determination to prove it, has cost uncounted hours of anguish, to countless generations. Simply calling yourselves Christ church does not necessarily mean that this is correct.

You quote scripture with some ease, an attribute that I believe you share in common with the Devil. Of course you quote only that, which serves your purpose, references to Biblical justification for communal living.

Let us analyse this communal living business, this independence. Every bushel of wheat that you haul to the elevators is hauled over the roads which we built. Everything that you export or import is hauled over the railroads which we built. I know what you think of the world outside your cloisters, for you see I have read your books. You regard us as sinners. You despise our way of life our radios, television, schools, sports, our literature. You pretend that you have a friendly attitude toward us but you haven't. You try to keep your boys and girls away from us lest they become contaminated. Of course this does not apply to the acquisition of the almighty dollar. You are glad to peddle upon us your ducks, geese, potatoes and are not above gathering discarded beer bottles to make a few cents.

"Come ye out from among them and be ye separate." 2 Corinthians 6:17" seems to be your creed, aim and goal. Well why don't you live up to it. Why buy our gasoline, our farm machinery, why sell us your goods. By all means, be separate, but be separated in all things, not just those that work to your advantage.

You say that you came to Canada in 1918 and that you were given privileges. Yes you were. Along with your religious privileges, you were given the privilege of becoming a Canadian.

I too came to Canada and before you did. I was given the privilege of becoming a Canadian, the privilege of attending Canadian schools, the privilege of giving and accepting a Canadian way of life. In so far as my talents have allowed I accepted that privilege and have tried to make my community, better and richer because I dwelt there.

On the other hand you educate your children to the sixth grade. What sort of preparation for life in this day and age, is that. You produce no doctors, no nurses, no teachers. This does not stop you from taking advantage of the services of our doctors, teachers and nurses, when you are in need.

You say that you are not land hungry, that you only require ¾ sections of land per family. How many people outside of the colony would like the same amount? Have you never heard of birth control and what is even more basic, self-control. In your colonies you have families of ten or more children and then you cry in your beards for more land, more land, more land. We in the outside world try to limit our families, so that they can have the things they need to devolop, mentally and culturally.

You know that colony life must pass. It may take one or three generations, but it must pass. You cannot maintain a country within a country. Shall I show you what your way of life will do to a district. No fraternal orders, no Lions Clubs, no Home and School, no high schools, just a drab grey blanket of existence.

Look at what has happened to the hamlet of Queenstown. When you came here it was flourishing, friendly little burg, today it is passing into oblivion. You could have supported its store, its garages, its implement agencies, but no, if you could buy a little cheaper elsewhere, you knew no loyalty to your community. I read of a town of four thousand people, which became a ghost town after the advent of two colonies.

If you want a community life, there are thousands of acres in the north of Alberta and British Columbia. Go there and establish your colonies, where they will not become a blight upon established communities. Have the courage and conviction of our pioneers. Carve yourselves a home where you can be separate.

You pride yourselves on your pacifism, you are opposed to force. Force, it is the only thing that you understand. You force your members to work for a pittance, or leave the colony. You are continuously forcing the government to listen to your pleas for land. You are like the importunate widow, "Luke 18:3," hounding the judges until they gave in.

In closing, again may I refer you to the scripture readings that you quote so glibly. Read the story of Ruth, in the Old Testament. She came as an immigrant to a foreign land. Did she seek to bring her past with her. This is what she said: "Thy people shall be my people and Thy God, My God."

When the Hutterian Brethren adopt that standard to their adopted country, they will be welcome.

—Canadian Citizen

Letter to the Editor

To the Editor of The Advocate,
Dear Sir:

THE HUTTERITES— A GROUP OF PEOPLE GRANTED SPECIAL PRIVILEGES BY A CANADIAN GOVERNMENT WHO WERE MORE INTERESTED IN POPULATING THE COUNTRY, THAN THEY WERE IN GIVING EQUAL RIGHTS TO ALL.

The Hutterites may claim Canadian Citizenship when it suits their purpose, but even they must admit that they do not accept FULL CITIZENSHIP. On occasion they may claim to be a Charitable Organization in order to avoid paying income tax, but as far as I can learn, their charity does not extend beyond the borders of their own colonies unless it may be applied in a broader sense to those from whom they purchase land at exaggerated prices. Again they claim to be a religious organization and so claim certain exemptions because of this. The Doukhobors also claim to be a religious body and yet their religion permits them to carry out wilful damage and destruction in British Columbia which is contrary to religion as we know it.

The Hutterites are no more truly a religious organization than those who make up tthe congregation of half a hundred other churches in this land of ours. Furthermore if the wealth they gain by dodging certain responsibilities was used for religious purposes, their claims in this direc- not used for the advancement of tion might hold water, but it is their religious life. It is not even divided up amongst those who earn it, for we understand Hutterite workers do not receive wages, as such. The money is simply hoarded up to purchase more and more land at prices which their neghbors, because of unfair competition, are unable to pay.

Because they are granted conditions not permitted in the case of TRUE CANADIANS, our Government has appointed a committee to go through a form of hearing to determine how much of this land may be turned over to this class, without placing tthe ordinary farmer and business man in an impossible position. It is significant that their beliefs and their way of life made their presence unwelcome in Moravia, in Hungary, in White Russia and in the United States. It is also significant that while in 1918, 12 colonies emigrated from South Dakota to Alberta, by 1960 they had 55 colonies in Alberta. If the same rate of growth continues for the next forty year, Alberta will have more than 200 colonies of Hutterites.

Now those of us who are not entirely blind can see "The handwriting on the wall." With Hutterites covering more and more of the west, and contributing little with the possible exception of large families, who will soon be looking for yet more land, it is quite evident that eventually they will squeeze out all of our own settlers.

Who then is to take over the management of our schools, our hospitals, our countries, our lawcourts, our provinces and at last our dominion?

They refuse to hold public office, they refuse to take an oath, they refuse to send their children to our schools, but insist on a combination church and school in their colony. They themselves teach the children in a foreign language before the regular school opens, with the result that the younger children become too tired to learn much in English. A few of their leaders determine all their policies, even whom and when they shall marry.

They believe in non-resistance, and therefore it could be but a short step from colonies to Communism when the leader of a certain country, which shall here remain nameless, decides the time is ripe to step in and take over. This feature alone is beginning to take on the ultimate in seriousness.

It is high time our governments shouldered their responsibilities, and either put a full stop to this creeping paralysis of our whole economic system, or else ORDER and ENFORCE the same standards of citizenship for Hutterites as those which apply to all other residents of this country. The law regarding military service has been changed, but we are all aware that should such become necessary to save civilization, this colony would immediately register as wholesale conscientious objectors.

Let their children come to our schools and learn our way of life, and when they grow up they will become loyal citizens.

If the government insist that these people conform to all our laws as regards COMPLETE CITIZENSHIP, then we do not oppose their coming to dwell in our midst, but if the government shirk ther responsibilities, permit them to spread out under a specially privileged system, and so set up unfair competition for the ordinary farmer, and also cater to and pamper their un-Canadian way of life, then we do oppose their entry most emphatically, and do so inform the gentlemen at Edmonton who have been appointed by us, the people, to carry on the business of this province.

It could very well be that a party's attitude on Hutterite expansion might become an issue of some consequence in the next election.

William Munro,
640 10th St. N.W.,
Calgary, Alta.

CLASSICAL STYLE. There's bright-eyed eagerness — and a dash of regal distinction in Chevrolet's rich new style for '62. A wonderful blend for a remarkable car.
HANDLING EASE THAT'S EXCEPTIONAL. Chevrolet has the smooth, easy handling you've been looking for. Due in part to its Ball-Race steering gear that almost eliminates friction.
EXCITING NEW PERFORMANCE. Pick your economy — pick your power! Chevrolet offers a tremendous choice: six engines that range from a 135 hp gas miser 6 to an all-out V8 performer that boasts 409 horses!
VALUE NO OTHER CAR CAN MATCH. Automotive value has two categories: Chevrolet and all others. Your best buy bar none in the showroom, and your best sale bar none at trade-in time.
RIDE THAT'S "JET-SMOOTH". Four big coil springs level bumps to molehill size — and then vibration is dampened at 725 insulating and cushioning points. What's left? Just a Jet-smooth ride!
OPEN SPACES FOR COMFORT AND CONVENIENCE. If you're high, wide and handsome . . . and even if you have five friends along, Chevrolet pampers you — with space to spare.
LUXURIOUSLY APPOINTED. Other cars may be as luxurious as Chevrolet — but only if they cost much, much more. That's a benefit of leadership: more Chevrolets made . . . more opportunity to give you more for your money.
EXTRAS THAT ARE STANDARD EQUIPMENT. Every model of Chevrolet comes complete with such quality extras as electric windshield wipers, deluxe steering wheel, foam cushioned front seat, front armrests, dual sun visors, cigarette lighter, glove box lock and crank-operated ventipanes — at no extra cost!

LITTLE LADIES GIRLS' CLUB

The February meeting of the Travers ittle Ladies Girls' Club was held Feb. 10, in the afternoon, in the WI club house, with President Terry Watson presiding. There were 18 members and two visitors present as well as the two supervisors, Mrs. Frank Tolsdorf and Mrs. Doug Walker.

The girls decided to raffle the flatware set they received as a premium from the Stanley tea. They also decided to sponsor a dance on Feb. 2, and to have the raffle drawn that evening. Proceeds of both ventures will go towards sending the girls to Olds in July.

The girls decided to pay $50 towards the WI club house since they used it for all their activities. Roll call was answered with an exchange of four pieces of homemade candy. Cross-stitch work on check gingham was demonstrated and all the members will do a design on an apron.

A pot-luck lunch was enjoyed by all.

FARM PROFITS FROM TREE CROPS

The Gordon Commission estimated that by 1980 Canada will need 28 million cords of pulpwood to meet the expanding requirements of her wood-using industries. At present, almost one-third of the pulpwood supply comes from farmers and other owners of private woodlands. These tree-growing properties are capable of a heavy increase in their wood crops, through modern technical methods now being applied through the Canadian Tree Farm Movement. Forest industry hopes to draw a high percentage of its future raw material from the 600,000 private woodlands which are now producing a small fraction of their capacity.
